#### THE OST CROP SYSTEM IN 110

Southern firming has been bused

Southern trining, has been bused in a mine a rule on the sale of a single indone too pitch base meant potent to the corton farmers. Fow pitch for jeanus in the pranuls and tolucio exclore in the penuts and tobacro regions A blg cotton crop brings not onl less profit but actually less mone expect criticisms. During the many rears of his public life we have any rears of his public life we have any acades hor any word of criticism shauke him. He has a record to be desired in Alabapia politics—Fiba Clipper.

He metal for this he not far to seek the farmers depended upon cutton and when there was a big cutton crop the boy is knowing that thes nahanda ni seas yan al-aval binow would have in any case an abundant is stiply look the cotton offered for a sale in the fall as much of it had note that one and duct was helplys. He had induct has cuten but it havely it langed to the sairty murchant of the hade

Discondition still messils to a Fine condition will provide to a print extent. I win this you thin will be organization and speech make ing and great gatherings to limit the cotton acronge. Such efforts to the past. have

base probably not been entirely valualism but that they should be considered the cases at all is sufficient proof of the essential wrongness of the whole system of larmin.

This fact Southern firmers are be

ning to see talks about increasing the total est ton crop. Indeed some line gone ton trop indeed some hate control of some hat so that so that so that so that so that of the ton. This is identified to it takes fully three times as much laid as it should to grow the number of balts.

is small to grow the number of bakes produced in any one year. Think ing men all over the South realize however that this will continue to be true until the South changes from a cutton forming section to a general farding, and livestock section. The new spirit of Southern Jurn ing, is not so much the spirit of rectains a section of the section of th

form as the split of revolution and the revolution is even now taking

place.

It is to be sure thing place so
if really a process of evolution
and one which requires an obsery
and eye to notice at all. But the pirit that inspires and directs the slow evolution from one system of farming to another is a rulked spir it which has dared to rut lines from the old ideals undreamed of by pur A single crop system of farming

A singular rop system of familing has nown with fulfiel to result in do plotted soils said deplied soils all ways mean poor farmers. This the great body of boothern fairmers are coming at handle to see From The New Sirit in Southern farming to the C. Miller between the property of the Southern farming the best of Miller between the southern farming the form of the Miller between the southern farming the form of the Miller between the southern farming the southern far ins. by L. 1. Willer intho Am. An Review of Reclevs for April Miller intho Vmeri

Dr Alexie Cartel Hopes to Graft New Nerves and Organs Into Gead Animal Tissues

New York —An attempt to translate death into lite is shortly to be made at the Rockefeller Institute for Medical Research in New York according to a statement may by Ir. Alexic Carrel of that institution, who is in Parls on his way to America. I am about to nucleavor, he said to grant connected with the nervous system in this connection it is suggested to me by Professor Do liove that such experiments will strike greatly the public imagination. I have already established the possibility of keeping alive life gorms in certain liquids.

liquide
'A question now raised by Professor On lines as to whether those 'proserved germs are capable of fertilization and the reproduction of species"

gation and the reproduction of species."

The experiments which are to be on animals will begin as soon as Docton Carrel ranches New York. It that succeed along the line suggested by at De Bove sciences will have attained an agalong dream of bridging death with a chain of never onling life. Doctor Carrel had gone to Parls from Stockholm where he experiment ed in company with a Swedish scientist. He has with him chemalograph pletures of living tissues asparate from their parent organisms. It from these pictures and the experiments that here we transplantation is possible.

#### WILSON SMOKED ONLY ONCE

Admits It Hit Him With Disastrous Effects and That He Never Tried It Again

Effects and That He Never
Tried it Again

Trenton N J—The arrival of 1 gold mounted amber steamned moor schaum pine at the statehouse from one of Wilson's Princeton friends in Vicksburg Miss brought from the president elect the confession that once in his life and only once fild he amoke.

It was this way he said Mi father was a smoker of some ottain ments and had got to the stage where he liked a fat black eigar in his lobure house my molitor took and vantage of his habit and emiltoyed hir to blow the pungent smoke over introduced in his six wished to but in received that I try it on one of her favorife plants and I obliged somewhat proudly For five minuter I steamed may like a furnace and then R hir me with disastrous effects I never tried it after that was the suggested that I try it on one of her favorife plants and I obliged somewhat proudly For five minuter I steamed may like a furnace and then R hir me with disastrous effects I never tried it after that "And you never had any ambition to learn smoling?" was suggested "No be replied Tou see I never was forbifded to, so there wouldn't have been any respite to their wouldn't have been any respite to the response of the months of the respite to the respite tor the respite to the respite to the respite to the respite to the
